

### **Tobacco-Free Environment**

The Board recognizes its responsibility to promote the health, welfare, and safety of students, staff, and others on district property and at school-sponsored activities. In light of scientific evidence that use of tobacco is hazardous to health, and to be consistent with district curriculum and Oregon law, it is the intent of the Board to establish a tobacco-free environment.

Consequently, student possession, use, distribution or sale of tobacco, including any smoking device, on district premises, at school-sponsored activities on or off district premises, in district-owned, rented, or leased vehicles, or otherwise while the student is under the jurisdiction of the school is prohibited.

Tobacco use, distribution, or sale by staff on district property, at district sponsored events, in district owned, rented or leased vehicles or otherwise while on duty, on or off district premises is prohibited.

Tobacco use, distribution or sale by others on district property, in district vehicles or at district sponsored events on or off district premises is also prohibited. Staff and/or all others authorized to use private vehicles to transport district students to school-sponsored activities are prohibited from using tobacco in those vehicles while students are under their care.

For the purposes of this policy, "tobacco" is defined to include any lighted or unlighted cigarette, cigar, pipe, bidi, clove cigarette, and any other smoking product, spit tobacco, also know as smokeless, dip, chew, snuff, in any form, nicotine or nicotine delivering devices, chemicals or devices that produce the physical effect of nicotine substances or any other tobacco substitute (e.g., e-cigarettes). This does not include FDA approved nicotine replacement therapy products used for the purpose of cessation.

Clothing, bags, hats and other personal items used by staff and students to display, promote or advertise tobacco products are prohibited on district grounds, at school-sponsored activities or in district vehicles. Tobacco advertising is prohibited in all school-sponsored publications, in all school buildings, and at all school-sponsored events. District acceptance of gifts or funds from the tobacco industry is similarly prohibited. The district will not contract with other public or private alternative schools that allow student tobacco use on campus.

Student violations of this policy will lead to disciplinary action up to and including expulsion. Students may also be subject to removal from any or all extracurricular activities and /or denial or forfeiture of school honors or privileges (e.g., valedictorian, salutatorian, student body, class or club office positions, field trips, prom, etc.). School and/or community service may be required. A referral to law enforcement may be made. Parents shall be notified of all violations involving their student and action taken by the school. When considering disciplinary action for a child with disabilities, the district must follow the requirements of Board policy JGDA/JGEA - Discipline of Students with Disabilities, including those involving functional behavioral assessment, change of placement, manifestation determination, and an interim alternative educational setting.

Staff violations of this policy will lead to disciplinary action up to and including dismissal. Violations by others will result in appropriate sanctions as determined and imposed by the Superintendent or Board.

Information about community resources and/or cessation programs to help staff and students overcome tobacco use will be provided.

The district will promote cessation resources and other positive alternatives to discipline. Tobacco use cessation programs may be established at district schools. Attendance or completion of tobacco use cessation programs by students may be allowed as a substitute to, or as a part of student discipline for possession, use, distribution or sale of tobacco at the discretion of the principal. Attendance at cessation programs not offered by the district is voluntary and related costs are the individual responsibility of the staff member, student and his/her parent and private health-care system.

As part of the district's tobacco use prevention activities, the superintendent shall ensure that tobacco use instructional programs as recommended by the Oregon Department of Human Services, Health Services, Tobacco Prevention and Education Program and the Oregon Department of Education are an integral part of its drug and alcohol prevention curriculum. Programs must be integrated within the health education program and age- and developmentally-appropriate instruction provided at every level, pre-kindergarten through grade 12, with particular emphasis on grades six through eight. It is the expectation of the Board that tobacco use prevention concepts will be integrated into the instruction of other subject areas as practicable.

Staff responsible for teaching tobacco use prevention will be encouraged to collaborate with agencies and groups that conduct tobacco use prevention education and to participate in ongoing professional development activities that provide basic knowledge about the effects of tobacco use, effective instructional techniques and program-specific activities.

The superintendent shall consult with local officials to promote enforcement of law that prohibits the possession of tobacco by minors on or off district grounds.

This policy shall be enforced at all times. The superintendent will develop administrative regulations as necessary to implement this policy, including provisions for notification of the district's policy, through such means as student/parent and staff handbooks, newsletters, inclusion on school event programs, signs at appropriate locations; disciplinary consequences; and procedures for filing and handling complaints about violations of the district's policy.

The superintendent shall ensure that the district's tobacco use prevention program, policies, curricula, training and cessation programs are evaluated at regular intervals. The input of students, staff, parents and others from the community will be encouraged.

## **Tobacco Use by Students**

If possession or use occurred on or near School grounds or while participating in both “home and away” School-sponsored activities, students will be subject to disciplinary action which may include removal from any or all extra-curricular activities, forfeiture of any School honors or privileges, or expulsion (as determined by School Administration). A student may be referred to law enforcement officials. Parents will be notified.

Students who use or possess tobacco products on or near School grounds or while participating in or representing Central Linn High at a School sponsored activity, at any time, “home or away”, will be subject to disciplinary action. If use occurs while participating is an athletic team, extra-curricular or co-curricular activity the student will be removed for the remainder of the athletic/activity season.

Students in possession of or using tobacco products while at School, or on or near School grounds will be suspended. 1<sup>st</sup> Violation – 2 day Suspension; 2<sup>nd</sup> Violation – 3 day Suspension

Any further violation will result in a 3-day suspension plus an evaluation to be determined by the Administration. Consistent refusal or neglect to obey the rules may lead to expulsion. Due process procedures shall be followed.

As an alternative to discipline, students may be referred to a cessation and/or tobacco education class. Attendance at such classes is voluntary. Any cost related to cessation classes is the responsibility of the student and his/her parent.

A referral to law enforcement may be made at any time.
