

Identification - Talented and Gifted

In order to serve academically talented and intellectually gifted students in grades K-12, the district directs the superintendent after due consideration of the input of staff, parents and the community to establish a written identification process. This process shall include as a minimum:

1. Behavioral, learning and/or performance information;
2. A nationally standardized mental ability test for assistance in identifying intellectually gifted students;
3. A nationally standardized academic achievement test for assistance in identifying academically talented students or Oregon Assessment of Knowledge and Skills (OAKS).

Identified students shall score at or above the 97th percentile on one of these tests. Other students who demonstrate the potential to perform at the eligibility criteria, as well as additional students who are talented and gifted may be identified.

If a student on an inter district transfer has been enrolled in a T.A.G. program in another district, the team will review the records and determine eligibility.

The Care or Data Teams will review individual data to determine eligibility if the student is nominated or referred.

The Board has established an appeals process for parents to utilize if they are dissatisfied with the identification process of their student for the district program for talented and gifted students and wish to request reconsideration.
