Policy and Rules for Student Participation in All Extracurricular Activities

It is the philosophy of the district that participation in extracurricular activities is an integral part of a student's total educational experience. Our extracurricular program teaches our students an understanding of sportsmanship, leadership, self-discipline, emotional control, physical well-being and teamwork. We believe it is a privilege to be a member of an extracurricular activity and acceptance of this privilege obligates the individual to a higher standard of citizenship.

Each student participating in athletics is expected to uphold the philosophy of competitive athletics which must deal with the concept of winning, for by definition, competition implies winning. Competitive athletics by their very nature require that winning be a prime goal, for without all contestants striving to win and placing great effort on doing so, competition would not exist. Therefore, we feel that winning must be emphasized to give validity to the concept of competitive athletics. Each student-athlete will be subject to district extracurricular guidelines.

The following rules and regulations are set down to be followed by all students of Central Linn schools who may try out for or become a member of any extracurricular activity or sport. This policy applies to all students at any time during the school year or when the season officially begins under the Oregon School Activities Association (OSAA) guidelines.

Duration of the investigation will be limited to ten (10) school attendance days from the time the school officials first learned of the infraction. In case of criminal offenses, the chief disciplinary officer may, at his/her discretion, wait until after a legal decision is rendered to proceed with Steps 4 and 5 below.
 4. If the chief disciplinary officer determines reasonable cause exists that the student has violated any of these provisions, he/she will be temporarily suspended from all extracurricular activities. The chief disciplinary officer will give written notification to the student and parents of a date and time to appear before him/her and show cause, if any, why the student should not be disciplined, as provided herein. The student may present evidence at such hearing or be represented by counsel. The officer shall make known his/her findings, but need not divulge student sources or call witnesses unless he/she chooses to do so.

Based on a recommendation from the coach or advisor of the activity, the individual may be permitted to practice with the squad or organization after the end of the second week of suspension. After the fifth week of suspension, the case may be reopened for review by written request from the student. The chief disciplinary officer will conduct this review.  - b. If a member of an activity, player or manager wishes to stay overnight, proceed to a different destination or return home by means other than school–arranged transportation, the parents or guardians must write a note and/or see the coach or advisor personally. The note should specify that the parents are accepting responsibility for their child as soon as the activity or athletic event is over. If the parents or guardians sign out with the bus driver, students would be permitted to make alternative transportation arrangements.
11. No student shall participate in any athletic event, practice or other activity unless he/she has been in school for the half day immediately preceding that event. This excludes a dental or doctor appointment (providing the student is pronounced physically fit to participate) and certain extenuating circumstances approved by the principal or vice principal. A violation of this rule will result in suspension of the student in the next scheduled practice, contest or activity following discovery of the violation.
12. Areas of specific conduct and/or personal appearance and grooming unique to each organization will be determined by those organizations and presented to their membership. Generally speaking, any behavior that is deemed unacceptable by the coach, sponsor and/or chaperon may result in disciplinary action.

13. Each student participating in interscholastic activities will be required to have on file a statement from a doctor specifying his/her physical fitness.
